Voice Recorder

Suppose you could keep your meetings on ice

Black Line Business Recorder

Better safe than sorry

Using the Vidicode Business Recorder not a word of what has been said during a meeting will be lost. Record every meeting, conference, interview, lecture or training in superior sound quality at the **push of a button**.

The user friendliness, the excellent recording capacity and the different export options are some of the features that make the Business Recorder an essential piece of equipment for every organisation. You can share the recordings via the web interface, e-mail or simply by putting them on CD or USB memory stick.

The Business Recorder has an internal microphone and, included in the package, an external Omni-directional microphone. It can also be connected to an existing microphone system in meeting- and conference rooms.

Application

Recording of: meetings, dictations, interviews, (press) conferences, interrogations, job interviews, performance reviews, training sessions, lectures, brain storm sessions, legal logbooks etc.

Access System

The included PC-software presents the recordings in a database. You can download recordings to the PC, play back faster or slower and attach the recordings to an e-mail.

Web Interface

The Web interface allows access to your Business Recorder via any web browser. You can search for recordings and play them back in Windows Media Player or Quick Time.

CryptoCard

Encryption saves recordings from unauthorised play back or tamparing. Only the right CryptoCard and PIN code will make the recordings accessible again.

Box Content

Business Recorder, power supply, remote control, software with license, manual, quick guide, Samson CM11B microphone with cable.
